EDUCATION

Vellore Institute of Technology (VIT)

B.Tech. in Computer Science and Engineering (Specialization in E-Commerce Technology)

Bhopal, Madhya Pradesh, India

Sep 2023 – Ongoing

- Cumulative GPA: **9.45 / 10.0**

Asha Modern School

Class XII (CBSE Board)

Saharanpur, Uttar Pradesh, India

Mar 2022 – Mar 2023

- Percentage: **95.8%**

Asha Modern School

Class X (CBSE Board)

Saharanpur, Uttar Pradesh, India

Mar 2020 – Mar 2021

- Percentage: **98.2%**

EXPERIENCE

amasQIS.ai

Remote

AI Intern

July 2025 – Dec 2025

- Implemented and fine-tuned supervised and unsupervised Machine Learning models in Python to optimize pattern recognition capabilities.
- Engineered data preprocessing pipelines using Pandas, NumPy and Scikit-learn, cleaning and normalizing high-dimensional datasets to improve model training efficiency.

PROJECTS

Resilient Customer Churn Prediction Platform

Jan 2026 – Jun 2026

Technologies: React, Flask, MongoDB

- Engineered a decoupled, explainable machine learning platform to predict customer churn probability from 30+ demographic, service and billing indicators.
- Integrated a local interpretability pipeline using SHAP LinearExplainer, converting complex model weights into user-friendly visualization contribution charts.
- Built a high-throughput batch prediction pipeline processing CSV files up to 10,000 records and designed a resilient database layer implementing MongoDB.
- Leveraged AWS S3 to manage user avatars, incorporating file-type validation, size limits (5MB) and an automated garbage collection routine to delete old images and prevent orphan cloud storage.

Automated Wishlist Email Notification System

July 2025

Technologies: Python, Pandas, SMTP, Excel Automation, TLS Encryption

- Programmed an automation script to parse user wishlist datasets, identifying inactive products over 10 days to trigger targeted email alerts.
- Integrated secure SMTP communication with TLS encryption, automating dynamic HTML email reminders to increase cart conversions.
- Utilized Pandas for data parsing & filtering and datetime for threshold checks.

TECHNICAL SKILLS

- Programming Languages:** C++, Python
- Frameworks & Libraries:** React.js, Node.js, Express.js, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- Cloud:** AWS EC2, AWS S3
- Developer Tools:** Git, GitHub, Docker, Postman

CERTIFICATIONS

- NPTEL SWAYAM Marketing Management - II (Top 1%)
- NPTEL SWAYAM Deep Learning (IIT Ropar, Top 5%)
- SC-900: Microsoft Security, Compliance, and Identity Fundamentals
- Coursera Industrial IoT Markets & Security

ACHIEVEMENTS & LEADERSHIP

- Coding Profile:** Ranked 4,495 out of 40,113 participants in LeetCode Weekly Contest 510
- Academic Excellence:** Secured 100/100 in Mathematics for 3 consecutive years in classes X, XI & XII CBSE Board.

HOBBIES

Music (Flute) | Sport (Judo) | Language (Spanish)
